

SO THAT I CAN...

...enjoy coffee with my colleagues again

#YesToVaccines

EVERYONE CAN HELP MAKE THAT HAPPEN

THE ONLY THING IT TAKES: to get your vaccine when it's available. Before that, let's do everything we can to help those who are eligible and who we care about to get their shot.

So that we can have days filled with meaningful and rich interactions again. So that we can feel safe.

At this point, the medical community does not have a medicine that would get rid of COVID-19. The vaccine is the only resource we currently have in overcoming the virus. Immunizing much of the population will potentially save thousands of lives, not only in Slovakia.

For more verified information about the vaccine and answers to any questions you may have, visit www.ZaockujemSa.sk
